OF MEDICAL DATA
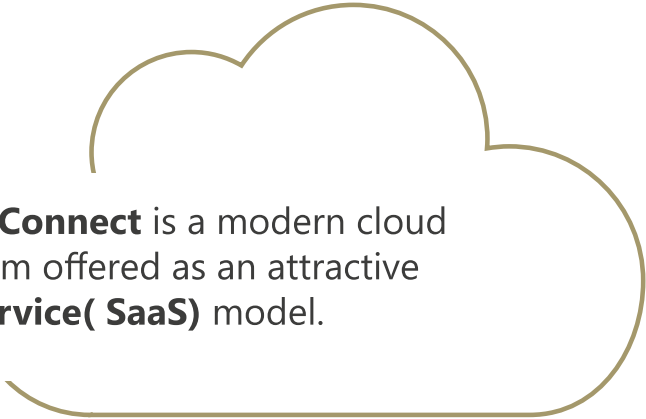

JiveX HEALTHCARE CONNECT

JiveX / HEALTHCARE CONNECT

MEDICAL DATA AVAILABLE IN THE RIGHT PLACE

JiveX Healthcare Connect adapts perfectly to the needs and requirements of individual healthcare providers. It offers solutions for sharing medical information on patients, medical health facilities, and insurance company medical services.

To communicate medical data expediently and logically even between facilities, JiveX Healthcare Connect offers the necessary functionality using state-of-the-art technology.
JiveX Healthcare Connect makes various services available, which can map different communication scenarios when combined in unique ways.

JiveX Healthcare Connect is a modern cloud technology platform offered as an attractive **Software-as-a-Service(SaaS)** model.

WE MAKE **EASY DATA SHARING** POSSIBLE

HEALTH INSPIRES US

We are digitizing healthcare for the benefit of all, and our JiveX products play an important role in the delivery of healthcare services worldwide.

Digitalization is the key to greater connectivity and a better, more targeted exchange of information between healthcare professionals – because better information means greater precision in diagnosis and treatment. In order to effectively raise the level of digitalization, our JiveX products offer superior interoperability, scalability, and user-friendliness.

We are your reliable partner for managing medical data.
